

PharmLabs San Diego Certificate of Analysis

Sample Sauce'd Blends - Zen - Baja Kush

Delta9 THC ND | THCa ND | Total THC (THCa \* 0.877 + THC) ND | Delta8 THC 32.88%

Table with 3 columns: Sample ID (SD251125-041 (119679)), Matrix Concentrate, Batch ID (FZ1M1BK1), Tested for (Fresh Farms E-Liquid LLC), Sampled (Received Nov 25, 2025), Reported (Nov 26, 2025), Analyses executed (CANX, D9C, SDR)

Summary D9C: The total Δ9-THC content in this sample is 0.00%. For the most accurate Δ9-THC concentration, refer to the GC MS/MS section of this COA. This sample was tested using HPLC and GC MS/MS. HPLC analysis can yield inconsistent results for Δ8-THC and Δ9-THC due to isomer interference: GC MS/MS was employed to avoid this issue. Please note, if THCa is present, the Δ9-THC level measured by GC MS/MS might be higher due to decarboxylation.

D9C - D9 Confirmation

Analyzed Nov 25, 2025 | Instrument GC MS/MS | Method SOP-041 D9C | The expanded Uncertainty of the D9 Confirmation analysis is approximately ±7.806% at the 95% Confidence Level

Table with 5 columns: Analyte (Δ9-Tetrahydrocannabinol (Δ9-THC)), LOD ppb (1.462), LOQ ppb (4.432), Result % (0.00), Result mg/g (0.00)

CANx - Cannabinoids

Analyzed Nov 25, 2025 | Instrument HPLC-VWD | Method SOP-001 | The expanded Uncertainty of the Cannabinoids analysis is approximately ±7.81% at the 95% Confidence Level

Large table with 5 columns: Analyte, LOD mg/g, LOQ mg/g, Result %, Result mg/g. Lists various cannabinoids like 11-Hydroxy-Δ8-Tetrahydrocannabinol, Cannabidiol, etc.

UI Unidentified, ND Not Detected, N/A Not Applicable, NT Not Reported, LOD Limit of Detection, LOQ Limit of Quantification, <LOQ Detected, >ULOL Above upper limit of linearity, CFU/g Colony Forming Units per 1 gram, TNTC Too Numerous to Count

PharmLabs hereby states that its Certificates of Analysis (COA) do not certify compliance with any federal, state, or local law or regulation, including but not limited to the 2019 Form 998. This COA is provided solely for informational purposes and is not intended for reliance by consumers or purchasers of a product. This report shall not be reproduced, except in full, without the prior written approval of PharmLabs. This report is not intended to diagnose, treat, cure, or prevent any disease. Results apply only to the specific sample(s) and batch(es) identified on this COA and do not represent any other lot, batch, or product from the client. Measurement of uncertainty is available upon request and, when legally required, has been reported on the certificate. PharmLabs makes no representation or warranty, express or implied, regarding the tested product's safety, efficacy, quality, merchantability, or fitness for a particular purpose. PharmLabs expressly disclaims any liability for damages, claims, costs, or expenses arising out of the use, misuse, or reliance upon this COA by any party. PharmLabs relies on information provided by the client regarding the identity, sampling, and chain of custody of the submitted material. PharmLabs assumes no responsibility for errors, omissions, or misrepresentations in such information. It is the sole responsibility of the client to determine and ensure the compliance of their product(s) with all applicable federal, state, and local laws and regulations. This COA may not be used in whole or in part for marketing, advertising, promotional, or labeling purposes without the prior written consent of PharmLabs. This COA is valid only as of the date of issuance and does not guarantee the stability or continued conformity of the tested product beyond that date. Any dispute arising out of or related to this COA shall be governed by the laws of the State of California, without regard to its conflict of laws principles.
